

HUP 0,60 IML label template

Printable envelope size is **229,5x 151,8 mm**, with overfiller 2 mm (**233,5x 155,8mm**). Minimum line width 0.1 mm.

Please create data as full-color **CMYK** graphics .

If the printout contains special colors, please specify according to the PANTONE color scale and insert the respective color code in the order. The minimum order quantity for cups with IML printing is 1,000 pieces. | If the graphic also contains a size specification, this bar (12 mm wide) should remain transparent. Attention: This cup can only contain 1 liter calibration bar at the height indicated in the template.

Accepted file formats:

For vector graphics: **pdf, ai, eps, svg** . Please convert all texts to vectors or attach the font to the graphics file. For image files: **jpeg, tif, png**.

At least **300 DPI** resolution, preferably without jpg compression.

Attention! We accept no liability for errors in content or grammatical errors after the submitted and confirmed print approval.
